

My House

My house is very big. There are nine rooms and three bathrooms in my house. I like to have my friends and family come visit me. My house is not near the city, but in the country. This means there are not a lot of people, stores or restaurants nearby.

My house is close to the beach. When my friends and family visit me we often walk to the beach and go swimming, or we sit under the sun. From the top of my house I can see the green mountains of Taitung. They are very beautiful. My house gets very hot in the summer, but it is nice and cool in the winter.

I have many animals living in my house. I have lizards, cockroaches, spiders, and sometimes even bats fly in. My friends like to come to my house to play music. I do not have a T.V. at my house, so it is very nice to listen to them play guitar.

One thing I do not like about my house is cleaning it. Cleaning a big house like mine can be very tiring. Although I do not like to clean, I am thankful for my big house.
