

Mother's Day

There were two children: Mary and Tommy. Mary was seven years old. Tommy was five years old. Mary was Tommy's older sister. Mary and Tommy woke up early. They had a lot of work to do. It was Mother's Day.

Mary and Tommy went to the kitchen. They wanted to bake a cake. They took a big bowl and a spoon. They got some flour, butter, eggs and sugar. Mary and Tommy mixed the flour, butter, eggs and sugar in the bowl with the spoon. They put the mixture in the oven to bake.

Mary and Tommy took it from the oven. They put the cake on a plate and let it cool. Then Mary and Tommy washed the bowl and spoon. They cleaned up all of the mess.

Mary and Tommy got some pens, pencils and paper. They made a card for their mother. They drew a beautiful picture of their mother and themselves. They wrote a special message too.

They walked upstairs quietly to their parents' bedroom and knocked on the door. Their mother told them to come in. Mary and Tommy gave their mother the cake and the card. They said, "Happy Mother's Day! We love you!"
